

Baha Eddine Belhaj Mouldi

Full-Stack Developer — Security-Oriented | Angular | React | Spring Boot | Python

Tunis, Tunisia | +216 55 128 982 | bahaeddyne.belhajmouldi@gmail.com

linkedin.com/in/bahamouldi | github.com/bahamouldi | bahamouldi.github.io/portfolio

Nationality: Tunisian | **Visa status:** Valid Tunisian passport, no Kuwait visa currently held — available for employer-sponsored work visa (Article 18) | **Availability:** Immediate / Relocation to Kuwait

PROFILE

Computer engineering graduate (ENIT, class of 2026) with hands-on full-stack development experience: Angular/React/Next.js frontend and Java/Spring Boot/Python (FastAPI) backend. Delivered 8+ full-stack projects covering REST API design, database architecture, Docker/Kubernetes deployment and CI/CD pipelines. Built and deployed BeeWAF, a production-grade intelligent Web Application Firewall (10,000+ detection rules, 3 ML models, 98.2% precision) on a Kubernetes cluster with a full DevSecOps pipeline — a differentiating combination of full-stack engineering and applied security rarely found in junior profiles. Seeking a Full-Stack Developer role in Kuwait to build secure, high-performance web applications.

CORE SKILLS

Frontend : Angular, React, Next.js, TypeScript, HTML5/CSS3, Tailwind CSS, responsive mobile-first design
Backend : Java, Spring Boot, Python, FastAPI, Node.js, REST APIs, microservices, JWT/OAuth2 authentication
Databases : PostgreSQL, MySQL, MongoDB, Prisma ORM, SQL, NoSQL, data modeling
DevOps & Cloud : Docker, Kubernetes, Jenkins, ArgoCD (GitOps), GitHub Actions, CI/CD, Prometheus/Grafana, Linux, Bash
Security : OWASP Top 10, secure coding, penetration testing, WAF engineering, vulnerability remediation
Quality : Unit & integration testing, code review, modular architecture, technical documentation

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Intern (PFE) 01/2026 – 05/2026
Beehive Entreprises, Tunisia

- Designed and built **BeeWAF**, an enterprise-grade intelligent Web Application Firewall, end-to-end: FastAPI backend, 10,041 detection rules, 3 ML models (RandomForest, GradientBoosting, IsolationForest), achieving 98.2% precision with 0% false positives on test datasets.
- Deployed the full application to production on a Kubernetes cluster (3 masters + 2 workers, Calico CNI): complete manifests (Deployment, Service, Ingress, PVC), health/liveness probes, zero-downtime rolling updates.
- Built the CI/CD pipeline: Jenkins (8 stages) + ArgoCD (GitOps), with Prometheus/Grafana monitoring dashboards and ELK-based real-time alerting.
- Implemented 27 security modules (anti-bot, DLP, anti-DDoS, virtual patching of 37 CVEs) achieving compliance with 7 frameworks (OWASP, PCI DSS, GDPR, NIST, ISO 27001, CIS, SOC 2).

Full-Stack Developer, Freelance (Part-Time) 01/2025 – 12/2025
Beehive Entreprises, Tunisia

- Built full-stack web applications for clients: Angular/TypeScript frontend, Java/Spring Boot backend, REST APIs, PostgreSQL/MySQL databases.
- Designed responsive user interfaces, integrated authentication systems (JWT, OAuth2), Docker containerization and CI/CD deployment.
- Performed penetration testing on 8 web and API applications, delivering detailed remediation reports for clients.

Cybersecurity Intern — SAP Threat Detection 07/2025 – 08/2025
Streamlink, Tunisia

- Built an automated SAP threat detection pipeline (Python/RFC SDK → ELK → N8N → TheHive) with detection under 2 minutes and auto-blocking under 7 minutes, 0% false positives.
- Monitored sensitive SAP transactions and configured real-time Kibana dashboards for security alerting.

Network Security Intern 07/2024
Tunisie Telecom, Tunisia

- Built network monitoring dashboards (Elastic/Kibana), analyzed traffic data and identified 10+ vulnerabilities.

FULL-STACK PROJECTS

BeeWAF — Intelligent Web Application Firewall (PFE, graded 86/100) 2026
FastAPI, Python, ML, Docker, Kubernetes, ELK, Prometheus, Grafana

- Enterprise WAF deployed in production: 27-module inspection pipeline, 107 signatures (9,824 regex patterns), 18-layer evasion detection.
- ML evaluation on the CSIC 2010 dataset (12,213 requests): 92.3% accuracy, 98.2% precision, 89.8% F1-score; production latency overhead under 20ms (median).
- MITRE ATT&CK mapping (22 techniques) with APT-group attribution (APT28, APT29, Lazarus).

https://github.com/bahamouldi/beewaf_final

Fedi Phone — E-commerce Platform 2026
Next.js, TypeScript, React, Prisma, PostgreSQL, Tailwind CSS, Docker

- Complete full-stack e-commerce: REST API backend, JWT authentication, cart, wishlist, real-time search, admin dashboard, WhatsApp order integration, Prisma ORM, dark mode.

https://github.com/bahamouldi/Fedi_Phone

Revenue Assurance Dashboard — Tunisie Telecom

2026

Python, Streamlit, PostgreSQL, Plotly, RAG

- Star-schema data warehouse analyzing 900,000 telecom revenue records (Q1 2025 – Q1 2026) across 4 domains (Voice/SMS, Data, Recharge, SMS Plus), with a RAG chatbot and 3–30 day forecasting dashboards.

https://github.com/bahamouldi/tunisie_telecom

Financial Analysis Platform — SFBT

2026

Python, Data Warehouse, BI, ML

- Complete ETL pipeline computing 20,000+ automated financial ratios (MSI 20000 standard), with BI dashboards and predictive models.

https://github.com/bahamouldi/pfe_malik

IDTS & Kairos — Secure Enterprise Platforms

2024

Java, Spring Boot, Angular, PostgreSQL, Docker, Kubernetes

- Two full-stack applications: Spring Boot REST backends (JPA), Angular frontends, PostgreSQL, Docker/Kubernetes deployment.

Microservices Architecture

2026

TypeScript, Node.js, REST API, Docker

- Distributed microservices application: decoupled services, REST communication, modular organization.

EDUCATION

Engineering Degree in Computer Science

09/2023 – 06/2026

National Engineering School of Tunis (ENIT), Tunisia

- Graduated 06/25/2026 following the defense of the final-year (PFE) project.
- Ranked 65th out of 600+ candidates in the national engineering school entrance exam.

Preparatory Classes (Physics & Technology)

09/2021 – 06/2023

Preparatory Institute for Engineering Studies, El Manar, Tunisia

Technical Baccalaureate — Distinction (Mention Très Bien)

06/2021

Lycée Abdelaziz Khouja, Kélibia, Tunisia

CERTIFICATIONS

Git & GitHub — 365 Data Science (2024) ; Networking — Cisco (2025) ; Fundamentals of Deep Learning — NVIDIA (2025) ; Exploring Adversarial Machine Learning — NVIDIA (2025) ; Machine Learning — NVIDIA (2024).
