PROFILE

Computer Engineering graduate (ENIT, Mention Très Bien, 06/2026) with a **strong GRC background and hands-on Information Security experience** — exactly the blend Corintis describes for its **Information Security Officer** on the EPFL campus in Lausanne. Built and operated an enterprise-grade security platform audited against **7 frameworks (ISO 27001, SOC 2, GDPR, NIST CSF, PCI DSS, CIS, OWASP)**, with full **ISMS lifecycle**: risk assessments, gap analyses, pragmatic control design, KPI-driven risk management and continuous compliance evidence. Comfortable turning risks and requirements into **practical, fit-for-purpose controls** — not compliance theater — and working with **auditors, customers, leadership and technical teams**. Solid foundation beyond GRC: **IAM, application security, incident response and business continuity**. Drawn to Corintis' mission — next-gen cooling for AI and data-center chips — and to shaping a **mature, pragmatic, scalable security program** with real ownership.

CORE SKILLS — MATCHED TO CORINTIS REQUIREMENTS

GRC & ISMS / Risk & Gaps : ISO 27001, SOC 2, GDPR, NIST CSF, PCI DSS, CIS, OWASP; ISMS lifecycle, risk scoring & cataloguing, gap analyses vs. ISO 27001/SOC 2, risk register, KPI design
Audits / Controls / Customer : Audit & certification support (ISO 27001/SOC 2), evidence traceability, pragmatic measurable controls (req. → impl.), customer security questionnaires, vendor-risk support
IAM : SAP SU01/PFCG, SoD, least-privilege, JWT/OAuth2/RBAC, quarterly access reviews & certification
AppSec / IR / BC : MITRE ATT&CK 22 (APT28/29/Lazarus), pentest Burp Pro/OWASP ZAP, vuln mgmt & virtual patching (37 CVEs), incident qualification/containment (ELK/Sigma/TheHive), business continuity awareness
Security Culture & Tools : Awareness, training, recommendations; ELK, Sigma, TheHive, N8N, Nmap/Wireshark/Metasploit, Python/Bash/Powercat/Docker/K8s, Linux/Kali

PROFESSIONAL EXPERIENCE

Security Risk & Application Security Engineer — Intern (PFE, 86/100) 02/2026 – 06/2026
Beehive Entreprises, Tunisia

- **ISMS + 7-framework compliance**: Led mapping against ISO 27001/SOC 2/GDPR/NIST/PCI DSS/CIS/OWASP; living ISMS, risk register, control docs, audit-ready evidence.
- **Risk & gaps**: MITRE ATT&CK (22 techniques), risk scoring (CRITICAL/HIGH/MEDIUM), gap analyses with KPIs; 153 OWASP scenarios (Burp Pro); 27 pragmatic controls + 37 CVE virtual patches (auditable, no theater).
- **Audits & customer assessments**: Evidence with full traceability risk→control→test; supported stakeholder/customer reviews, security culture via training; prod. metrics <20ms, 92.3% accuracy (CSIC 12k), 98.2% precision, 0% FP.

Junior Cybersecurity Specialist, Freelance (Part-Time) 01/2025 – 06/2026
Beehive Entreprises, Tunisia

- Penetration testing on **8 web and API applications**; identified, classified and tracked findings through remediation; translated technical findings into business risk language for client teams.
- Delivered detailed risk and remediation reports for leadership and operational teams, with clear ownership and follow-up.

Cybersecurity Intern — SAP IAM & Threat Governance 07/2025 – 08/2025
Streamlink, Tunisia

- **IAM**: Designed least-privilege *Monitoring Basis* role, enforced Segregation of Duties via SU01/PFCG analysis; risk-scored 7 sensitive SAP transactions; quarterly access review logic.
- **Incident response & monitoring**: Built automated detection-and-response pipeline (Python/RFC SDK → ELK → N8N → TheHive): detection <2 min, auto-blocking <7 min, tested on 3 attack scenarios — full documentation for audit.

Network Security Intern 07/2024
Tunisie Telecom, Tunisia

- Assessed network security posture (10+ vulns); built SOC-style detection with Elastic/Kibana + Sigma rules; incident documentation.

KEY PROJECTS

BeeWAF — Enterprise ISMS & Risk Program (PFE, 86/100) 2026
ISMS, ISO 27001/SOC 2/GDPR/NIST, Risk & Controls, Audit Evidence

- Full lifecycle: risk assessments → gap analyses → pragmatic control design (27 controls) → KPI-driven risk management → audit evidence. Production-deployed, filters live traffic for 2 enterprise apps; Kubernetes + Jenkins/ArgoCD + Prometheus/Grafana + ELK.

SOC Detection & IAM Governance 2025
Python, PyRFC, ELK, N8N, TheHive, SoD

- IAM governance framework + automated incident response; IAM access reviews and SoD compliance validation with auditable trail.

EDUCATION

Engineering Degree in Computer Science — Highest Honors (Mention Très Bien) 09/2023 – 06/2026
National Engineering School of Tunis (ENIT), Tunisia

- Ranked 65th / 600+ national entrance exam. PFE defended 25/06/2026, grade 86/100.

Preparatory Classes in Physics & Technology 09/2021 – 06/2023
Preparatory Institute for Engineering Studies, El Manar, Tunisia

CERTIFICATIONS

Networking (CCNA) — Cisco (2025); Fundamentals of Deep Learning — NVIDIA (2025); Exploring Adversarial Machine Learning — NVIDIA (2025); Machine Learning — NVIDIA (2024). *Open to ISO 27001 Lead Implementer / SOC 2 certification to strengthen GRC credentials.*

LANGUAGES

French (Fluent — daily professional use, ideal for Lausanne) | English (B2 Professional, fluent in GRC/audit communication) | Arabic (Native)
